

NEW PRODUCT DEVELOPMENT MANAGER

Lipa Pharmaceuticals Limited is a thriving, innovative and market leading contract manufacturer of complementary and OTC products to the health care industry based close to the M5, in South West Sydney.

Due to continued growth, we are currently seeking a dynamic and self-motivated person, to join our team in the role of New Product Development Manager.

As the New Product Development Manager, you will be responsible to research, develop and present product concepts to customers in the complementary industry. You will drive product innovation through assessing potential new active ingredients whilst ensuring commercial viability.

To be successful in this role, you will need to demonstrate the following attributes and experience;

- Minimum two years' experience in the complementary industry
- Tertiary qualifications in Naturopathy
- Previous experience managing a team
- The ability to meet deadlines and work under conflicting time frames in a team environment.
- Exceptional personal organisational and communication skills.
- Develop strategies to create new products that are evidence based.
- Possess an understanding of TGA guidelines and regulation requirements
- Convert ideas into products utilising Project Management methodologies.
- Present new product ideas to existing and potential customers.
- Experience in the editing of technical and marketing information
- Strong research, writing and presentation skills.
- Sound commercial understanding of the complementary industry
- An understanding of production processes within the pharmaceutical industry is highly desirable.

For further information, please contact Suzanne Casanova on 8796 1400 or email your resume to hr@lipa.com.au

Please note – the successful candidate will be required to undergo Police, Medical and reference checks.
